**"Strength in Fabrication
Excellence in Execution"**

Why Choose Us?

- ✓ Skilled professionals with years of Experience
- ✓ Handles a wide range of project size and types
- ✓ Trusted by Industry Leaders nationwide

RHAJTEK not just make the equipment, we provide products/services that make the equipment operate BETTER

INTRODUCTION

Rhajtek Industrial Systems & Construction Inc, a PCAB, SEC, and DOLE registered industrial and construction company & production plant based in Marilao Bulacan, is renowned for its extensive background working with leading cement companies, power plants, and many other Food Manufacturing Companies, which has secured key projects with notable companies nationwide.

Our company comprises of highly skilled professionals, including engineers, welders, laborers, installers, and fabricators, all of them possess extensive experience in various engineering solutions, including electro mechanical, material handling, electrical and instrumentation, civil, and steel fabrication. Our corporate identity exemplifies an unwavering dedication to solutions characterized by lasting integrity in every aspect of engineering.

RHAJTEK has also been instrumental in constructing production facilities/offices for leading companies like Alaska Milk Corporation, Nestle Philippines, Pepsi Cola & other food industry in the Philippines.

OUR WORKFORCE

The core of RHAJTEK's success rests with its workforce and their ability to carry out their responsibilities efficiently and effectively. We hold a strong conviction that the company's accomplishments are closely linked to the quality of our workforce. As such, we are dedicated to providing them with thorough training and opportunities to acquire valuable experience, ensuring their consistent ability to not only meet but also surpass our customers' expectations. Our team members embody the following principles:

- Strive for excellence in their respective roles.
- Approach problem-solving creatively and take proactive measures to resolve issues.
- Demonstrate unwavering dedication, high energy levels, initiative, tenacity, and a strong work ethic.
- Exhibit enthusiasm and derive satisfaction from their work.
- Challenge conventions, foster innovation, and explore new opportunities.
- Fearlessly embrace new challenges and never cease their quest for learning and growth.
- Quality work is a cornerstone of our approach, and we prioritize it in our programs and projects

Moreover, we place importance on fostering camaraderie among our project teams, whether they are working on new projects, modifications, or repairs. At RHAJTEK, we actively engage with our workforce, ensuring that they find enjoyment in their work and providing opportunities for them to bond and have fun after a productive day.
